

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

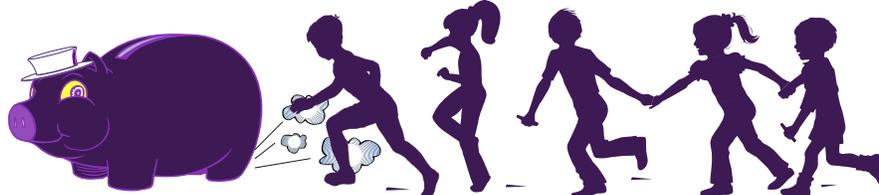

Mrs. Jocelyn's (Jocelyn Agra, Speech-Language Pathologist) therapy was very efficient. My son was getting better and better! In the beginning I couldn't understand what my son was trying to say and he was depressed to speak and stopped having conversations. I took him to another therapy before but he didn't like it. After we met Mrs. Jocelyn my son started to want to practice and tried to speak. He really enjoyed therapy. Now he loves to talk and I can enjoy conversations with him. We are so happy and thank you very much!

Leanne (Leanne Cadwallader, Vision Screener) is a respectful and professional screener. Her instructions were clear and easily understood to our children. Leanne runs the screening very smoothly because she was very well prepared. Definitely we would like to schedule more screenings with your program. Our program is very appreciative of your services.

Maria (Maria Martin, Physical Therapist) is a wonderful Physical Therapist and really cares for the kids she sees. She has attended our team meetings which really helped. She is an asset to our son's therapy and we really value her insights and suggestions. Thank you Elks for helping us, may God bless each and every one of you!

I have worked with Gina (Gina Murphy, Vision Screener) for many years. It has been a pleasure working with her each of these years. Gina is always pleasant, in a positive mood, and is great with the kids. Gina is also great to work with because she is flexible and is open to working with me when scheduling changes need to occur. I can't think of a negative thing to say about Gina and can't imagine a better representative for the Elks Major Project.

Our son Koen went from barely being able to communicate with family to being able to be understood over the phone by friends of our family. I spend a lot of time away from home so being able to talk with my son has improved our relationship greatly. I owe our strong family ties and Koen's great start to his education to Mrs. Uetake (Hedley Uetake, Speech-Language Pathologist). Thank you so much for the tools you have given my son that will remain with him for a lifetime.

A coin a day so they can walk, talk, see and play!
