

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Judy (Judy Linda, Occupational Therapist) is amazing. She is incredibly compassionate and sensitive to the needs and personality of the child. She was unbelievably patient in listening and encouragingly firm in her recommendations and expectations. She is a total asset to our special needs children here in the mountain community. She became like family.

Gina (Gina Murphy, Vision Screener) does a wonderful job screening our students! She quickly puts them at ease with her calm, gentle manner. They love playing the "pirate game". Both years she has come we have detected three students who needed follow-ups. This is such an important discovery prior to entering kindergarten. We are thankful for her part in preparing our little ones for the next "step" in their education. Thank you!

Linda (Linda Pinnell, Vision Screener) has been coming to our school for twenty-nine years! We appreciate her professionalism and the efficient way she works through the screening process. She is amazing with the children - sweet and gentle. She immediately makes the children who are a bit anxious feel comfortable. She does a great job and we love her!

Again Katie (Katie Mackay, Vision Screener) came to our rescue with the Spanish students. She makes them feel comfortable and takes an interest in them. Thanks to Katie's screening we will have two children referred to an eye doctor. Thank you!
