

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Jocelyn (Jocelyn Agra, Speech-Language Pathologist) is an awesome speech therapist and I would recommend her to anyone who needs these services. She works very well with the children. She prompts and encourages them without making them feel uncomfortable. They play and enjoy themselves but she prompts them in such a positive way that they don't realize their doing it correctly. After realizing it, they are eager to do more or learn more. I saw my daughter working really hard to get it right and she enjoyed practicing every day. She called it homework and nobody enjoys that, but she did. I saw extreme improvement in my daughter and now that she is in Kindergarten she is not afraid to speak up and speak out. If she doesn't say it correctly or people don't understand her she says it slowly and pronounces her words so that they are able to understand her. Thank you Jocelyn for your positive teaching, for making my daughter feel comfortable. Thank you for being a support for me as well.

Wyomi (Wyomi Yonzon Yockey, Vision Screener) has a very pleasant manner, she relates well to the young children. The entire process ran smoothly. I would definitely schedule again especially with Ms. Yonzon Yockey. The program has been very effective in catching vision concerns at an early age.

Linda (Linda Pinnell, Vision Screener) is the best! Wonderful, professional, great with children, and absolutely the best screener! If any of the parents had concerns or questions regarding the child's referral Linda always explained and put the parents at ease. Linda is very informative and knowledgeable. I have the utmost respect and admiration for Linda Pinnell.

The services are great and the vision screener couldn't have been better! She (Leeanne Cadwallader, Vision Screener) fit right in with our team and did such a wonderful job with our children. All the staff enjoyed working with her!

A coin a day so they can walk, talk, see and play!
