

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Thank you very much for allowing our son to be a part of your program. We absolutely love our son's therapist (Becky Fahs, Physical Therapist). She is fun and energetic and treats our son with great respect. Keep up the awesome work.

As a Past Exalted Ruler of Hemet Lodge, it's always encouraging to see our charitable works put into action. Thank you for your years of service to our schools. (Linda Pinnell, Pediatric Vision Screener)

Genie Ruddle (Speech-Language Pathologist) was extremely professional. She came to us with a wealth of experience and an attitude that was playful and inviting to our daughter. She had a game, puzzle, puppet, etc.... for every activity. My daughter had a fun time playing and didn't realize how she was working to improve her speech. The results were dramatic. We are very grateful.

This was our first vision screening (Leeanne Cadwallader, Pediatric Vision Screener). The parents were interested and we had good participation. Please contact us to schedule for next year.

I think this is a wonderful program/service. How blessed we are to have Linda (Linda Pinnell, Pediatric Vision Screener) come and do the eye testing with the children. She is so warm and friendly with the children and makes them feel so comfortable. Linda has been coming for 25 years! She is a delightful part of our school year! Thank you to the Elks Club for providing this wonderful service to our children. Every year Linda finds a few children that would have gone undetected for who knows how long. We are grateful to the Elks for this great service.
