

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Sheila (Sheila McCarthy, Occupational Therapist) is a wonderful person. She was so helpful in all aspects for Sapphire. She showed and told me ideas to help Sapphire at home and gave me encouragement when I felt lost. We will always be grateful to Sheila and the Elks for their wonderful help. This program and physical therapy program is beautiful. My three children thrived because of both. Thank you, thank you. We love you.

Brian (Brian Ferri-Taylor, Physical Therapist) is an excellent physical therapist. He worked well with Preston and I am forever grateful that we were able to use those services. Thank you so much.

I am overwhelmed with gratitude for the services that are being provided for my daughter. It's been a terrible struggle to get her school to provide her with this therapy that they deem too "evasive". Thank you for helping us to get our daughter to reach her goals. Paula (Paula Rainey, Occupational Therapist) has been wonderful!

It was a pleasure to have Leeanne (Leeanne Cadwallader, Vision Screener) conduct the vision screening at our center. Her findings were very timely since many of the children will be going to kindergarten. Thank you!

Since Hedley (Hedley Uetake, Speech-Language Pathologist) came to work with Keola I have noticed a big improvement in his sentence structure and vowel sounds. Keola is able to communicate with family members now!

A coin a day so they can walk, talk, see and play!
