

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We loved Maria (Maria Martin, Physical Therapist)! She was wonderful!

* * * * *

Terri (Terri MacCoan, Speech-Language Pathologist) was wonderful interacting with our daughter Caitlyn. She made it clear from the beginning that Caitlyn was ultimately responsible for her success at stopping sucking her thumb and it worked. She seemed to genuinely care for Caitlyn and we enjoyed the weekly phone calls. Thank you.

* * * * *

Gina (Gina Murphy, Vision Screener) is wonderful to work with and the children love the screenings. Gina is very professional and the parents like being able to talk to her when they need to.

* * * * *

Judy (Judy Linda, Occupational Therapist) is wonderful with my kids. She is truly gifted. I feel so lucky to be able to have this service/treatment for my child. And even more grateful that Judy is her therapist. She is obviously very knowledgeable in what she does and her suggestions to aid in her treatment.

I would like to say that Linda (Linda Pinnell, Vision Screener) does a phenomenal job screening our children. The screenings go very smoothly and the children are very comfortable with Linda. She works very well with our age group. Thank you for having such a great screener available to us.

As Always Ms. Pinnell (Linda Pinnell, Vision Screener) is very polite and efficient. I am still learning; every time she comes she has something new to teach me. She has great technique to do the screenings. She is adorable and nice with the preschoolers. Thank you for her and this great program that brings great services and support to our students' education. They need their vision to learn their ABC's and to learn their names.

A coin a day so they can walk, talk, see and play!
