

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Thank you, thank you for all your help. The therapist is wonderful!

Lisa {Lisa Nelson, Occupational Therapist} has been a wonderful addition to Diana's therapy program. She has a wealth of information and always answers (or researches) my questions. She lets Diana set the pace and pushes her just enough to keep it interesting, fun and therapeutic.

Since Diana has been in the program, I always put my change into those little purple pigs.

Thank you all so much.

Dear Erina {Erina Kindreich, Pediatric Vision Screener},

Thank you for bringing your vision screening program to our school. The children you have recommended for follow-ups have all followed through. The positive outcome has been exciting to observe and experience. Please extend our appreciation to the California-Hawaii Elks for giving and offering your special services to our most special children.

Your program guided us, as parents and a family, through a very difficult and frustrating time. It gave us the tools to help our child develop. Maureen {Maureen McGuire, Speech-Language Pathologist} was great and unobtrusive with our son, who many times a day could become very overwhelmed. It was great having someone of her caliber and experience.
