

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

### **Pediatric Vision Screeners very successful!**

Linda Nay [Linda Nay-Morgan, Pediatric Vision Screener] has a warm and energetic manner with both volunteers, staff and children. We have maximum success with the testing procedure because Linda can keep a child interested and able to follow directions. She recognizes the capabilities of each individual child. It has always been a pleasure to have Linda in our child care center.

### **What a great service!**

Gina Murphy [Pediatric Vision Screener] does an outstanding job. She seems to have a special touch with all ages. We have been served by Elks vision screening since 1990. Parents have been very pleased with referrals from the vision screening. Over the years we have had many referrals.

What a great service. God bless you and Gina. We think she is wonderful.

### **Child progresses well:**

Your program has been an incredible gift for our daughter, Jasmine. When we adopted Jasmine, we were told that she would always be behind developmentally. Due to good medical care and Judy Linda's [Judy Linda, Occupational Therapist] knowledgeable and experienced practice, Jasmine is developmentally on track. We are thrilled and relieved. Thank you! Thank you!

Jasmine has a few more areas of growth to work on now. We can't wait to see what the next six months bring!

### **Daughter looks forward to therapy:**

Terry [Terry MacCoan, Speech-Language Pathologist] is great to work with and my daughter always looks forward to her coming "to play." Thank you for this program.

**A coin a day so they can walk, talk, see and play!**
