

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

### Vision screening fun and safe:

Nicole {Nicole Smith, Pediatric Vision Screener} is a gift! She not only provides a very necessary service, but she is wonderful with the children. This could be a very scary experience, but Nicole makes them feel safe.

I am hoping that this service will continue to be offered. Our community desperately needs help in caring for our little ones. It is amazing the things that Nicole has found that profoundly affect these children.

\* \* \* \* \*

Joan {Joan Adam, Pediatric Vision Screener} has developed a wonderful rapport with our school and staff.

The children always leave and say, "That was fun!" They never leave scared or uncomfortable.

We look forward to seeing Joan every year.

### A thankful parent writes:

Miss Charlene {Charlene Robles, Speech-Language Pathologist} has been very helpful to both my son, as well as myself. Her interaction with Alex is fun for him and allows him the benefit of learning his word pronunciations. She has given me a lot of ideas and advice regarding practicing at home the sounds we are concentrating on for the week. I believe that Alex has made remarkable progress these past several months through the guidance, support and directions of objectives set forth by Miss Charlene.

**A coin a day so they can walk, talk, see and play!**
