

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Brian (Brian Ferri-Taylor, Physical Therapist) is an angel. He helped Hunter with his torticollis and low muscle tone. He taught me "homework" to help my son get stronger to where now he is "all boy". He runs and climbs; he does it all. We will always love and be thankful to Brian.

I've been working with Gina (Gina Murphy, Vision Screener) for several years at the school. She has always been so efficient and wonderful. We look forward to seeing her each year.

\* \* \* \* \*

Linda (Linda Pinnell, Vision Screener) is so wonderful with our children. She does her job with ease and has so much patience. Every year she has been consistent and very thorough in her work. We feel blessed to have her and this wonderful program. Thank you.

Genie (Genie Ruddle, Speech-Language Pathologist) is excellent! She helped my older son improve his speech before kindergarten 5 years ago and I am confident that she will help Aydin as well. Both boys were and are comfortable with her and enjoying her sessions. She's definitely a great asset to the California-Hawaii Elks Major Project. We love her!

Leeanne (Leeanne Cadwallader, Vision Screener) worked extremely well with the staff and children. Everything was done in an orderly manner and because small groups of children were done, the children got to observe, ask questions and earn a sticker. Great job and very enjoyable.
