

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

A Preschool Director writes:

As usual, Gina {Gina Murphy, Pediatric Vision Screener} was very professional, courteous, and wonderful with the children! We are so grateful for this important service. Thank you for caring about children enough to provide this service.

Grateful parents write:

To the California-Hawaii Elks Major Project, Inc.:

Our family wants to thank you so very much for the occupational therapy you have provided for our son, Justice.

We are a family with four children, all boys. Two of our children have been diagnosed with autism. One has not yet been diagnosed, but all three have a need for occupational therapy.

We thank God for the service of occupational therapy you are giving to our children and what a big change it makes in the behavior and sensory stimulation needs these children have. I have seen changes, improvements, in Justice and can't hardly wait for my other children to get into this program. Thank you. Judy Linda {Occupational Therapist} does a wonderful job. She really cares for these kids.

Thank you for your services. We really benefited from your program. Our son's confidence grew leaps and bounds as a result of his therapy.

A coin a day so they can walk, talk, see and play!
