

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Dear Elks,

Thank you so much for what you do for our kids. You see I am a foster mom and I spend my life running around getting special treatments for my disabled foster children.

Little did I know that my own child would be born with issues. I can't tell you how wonderful it is to get the help I need with my 12 year old. It has changed our lives.

Not only does Judy (Judy Linda, Occupational Therapist) do cranial work and occupational therapy, but she also recommends treatment options that can also help.

You can't put a price tag on how much this means to our family.

James' Mom

Maria's (Maria Martin, Physical Therapist) services were a priceless asset to our daughter Elise's development. She helped Elise walk much sooner than we would have been able to do on our own. I have also obtained many valuable tools to use with Elise that I never would have "thought of" on my own. We are so thankful for everything Maria has done for Elise!

Linda (Linda Pinnell, Pediatric Vision Screener) is always very nice and kind to the children and staff. She sets up and gets started quickly. All the children felt safe and comfortable working with her. The children especially loved her books and her cool stickers! Thank you!!!

A coin a day so they can walk, talk, see and play!
