

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Our therapist listens to us:

Judy [Judy Linda, Occupational Therapist] is great with my child. She is kind and caring with both of us. She listens to the concerns and needs for my child and adjusts her approach as needed. She is very much appreciated and treasured.

Vision screener very friendly:

Our preschoolers were very at ease with the screener. She was very friendly and took time not to rush the children. It was great that Mrs. Galvan [Anna Galvan, Pediatric Vision Screener] could speak Spanish to our parents and their children.

A wonderful experience!

We had a wonderful experience with the California-Hawaii Elks Major Project, Inc. Hedley Uetake [Speech-Language Pathologist] has been terrific. She is a great speech therapist and is very experienced in working with children. My child responds very well to her and Ms. Hedley is very good/experienced at getting and keeping her attention. Thank you!

Several children undergo treatment.

Thank you for offering this program to the community. It's so important to detect problems early in young children before kindergarten.

Several of our parents have had their children screened by a doctor and are undergoing treatment. They are thankful we offered this service to our families.

A coin a day so they can walk, talk, see and play!
