

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Kristin (Kristin Bratton, Physical Therapist) is an excellent therapist. She told me about any concerns she had about my baby. We are very thankful for her help!

Leeanne (Leeanne Cadwallader, Vision Screener) is very professional, organized, and knows her job well. She has many strategies to help the children respond to the testing. Thank you for the service you provide!

First of all, thank you for your service. We are very happy with Paula (Paula Rainey, Occupational Therapist) working with Faith. Paula always has time to listen and to help me understand because of my poor English. She gave me exercises in writing to work with Faith. I think she is very professional on her work. She uses things from home and work with Faith which is great to do myself without Paula during the week. In a short time Paula got to know Faith and Faith is comfortable with her.

I really appreciate the opportunity that this program gave to my son Ryan. Ms. Uetake (Hedley Uetake, Speech-Language Pathologist) was very personable and kind. She gave us good activities that helped with my son's speech. Although I was not able to attend all therapy sessions, Ms. Uetake was able to communicate what they were working on with my mother who attended most of the sessions. My son truly enjoyed his time at speech therapy and did not mind doing the homework Ms. Uetake assigned. The work helped my son master the required objectives. Again, I want to express my gratitude in this program. Your program is truly making a difference in the lives of the children.
