

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Vision screenings excellent:

We always enjoy having Anna {Anna Galvan, Pediatric Vision Screener} come to our center. Her friendliness and helpfulness makes the screening process for the children go smoothly and securely for them. Her input also helps to determine that there may be other concerns regarding a child and I can discuss the observations with the parent.

This is an excellent service for many of our young children who have never had vision screening before. Thank you!

Thanks are not enough:

I want to take this opportunity to say thank you for this wonderful service to offer to the kids.

I also want to express my total appreciation of Sheila McCarthy {Occupational Therapist}. She is just great for my son and had cleared up many questions I had about his occupational therapy from a prior Occupational Therapist last year. She is always willing to spend the time to answer questions or make sure home instructions are clear and that I understand what to do. The knowledge she has about her job is very evident. Once again, thank you! Sheila is the best.

Our therapist has been a great help to our daughter. We can't thank her and the Elks enough for everything. We never knew the Elks did this sort of thing and we are grateful to be given a home therapist (we drive Brooke to many weekly appointments already) that knows her stuff and that there is no charge (we have so many medical bills already). Thank you from all of us.

A coin a day so they can walk, talk, see and play!
