

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Early detection important!

Once again I would like to thank the Elks for the wonderful vision screening program. You have been to our school for the past 14 years. We have been fortunate in having most screenings positive, although we have had a few referrals. Your program is very much appreciated by our parents and myself. Early detection is so important with any disease. Thank you again.

Children's lives are made better because of you:

Linda [Linda Pinnell, Pediatric Vision Screener] is like family here. We all love her. She is a real asset to your program. We look forward to her and her group coming to our school each year. Thank you Elks for all of your help. The children's lives are made better because of you.

Thank you for your commitment to young children:

The service provided by your organization is so valuable to the low income families in our community. We thank you and Nicole [Nicole Smith, Pediatric Vision Screener] for your commitment to young children!

Speech therapy was fun!

We felt very fortunate that Madison was able to receive therapy from this program. Her speech greatly improved and she gained self confidence and self esteem. Ms. Hedley [Hedley Uetake, Speech-Language Pathologist] made speech therapy fun and we learned to play many different games. Thank you so much!

A coin a day so they can walk, talk, see and play!
