

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

### The Best Thing About the Program:

The program has been wonderful. The therapist (Hedley Uetake, Speech-Language Pathologist) assessed and provided interventions that helped push this child's progress along. She was respectful, attentive and sensitive to my family's needs pertaining to my child. The sessions were fun for my child. Boundaries were set professionally but not "cold" or distant and we appreciate that greatly.

The best thing about your program is the one on one therapy with therapist and child. I am very pleased with how much my child improved on his speech.

### Preschools and Day Care Centers Appreciate Elks Pediatric Vision Screeners:

Teresa (Teresa Schachtel, Pediatric Vision Screener) was lovely. She was calm and patient with the children and took the time that was needed to do a thorough screening with each child.

I look forward to having Teresa back next year. Our parents really appreciate the service you are providing and Teresa does a great job!

Thank you!

Gina (Gina Murphy, Pediatric Vision Screener) does a marvelous job. She is thorough and puts the children at ease. She works well with the staff and parent volunteers. When Gina comes here each year it is like welcoming back a very good friend.

Elizabeth (Elizabeth Holzhauser, Pediatric Vision Screener) is wonderful! She has been screening our school for many years and has detected several vision problems. Our parents are very thankful for the expertise and the recommendations for further examination by eye specialists or family physicians. It is a pleasure to see Elizabeth every year!
