

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We feel very fortunate to have had California-Hawaii Elks program support our son's special needs. Judy (Judy Wong, Occupational Therapist) has so much knowledge to share and assisted us in understanding development positives and deficits. My father is an Elk and proudly contributes to the "banks" for the children. God bless this program.

I feel so fortunate that we found the California-Hawaii Elks Major Project and Jocelyn (Jocelyn Agra, Speech-Language Pathologist). Miss Agra makes the therapy appointments fun for Sophia so she enjoys going. I can tell you that Miss Agra puts time into prepping for the sessions. I really have noticed that Sophia's speech is clearer and the times when I need to interpret are less frequent. I am so grateful to Miss Agra and the program for helping my daughter.

Kristin (Kristin Bratton, Physical Therapist) was a very good therapist to our son David. We enjoyed watching her work with him. She helped him so much and David loves her so much. We are very appreciative to her. Thank you.

Justin enjoys Hedley's (Hedley Uetake, Speech-Language Pathologist) positive encouragement and has made great progress with the goals she has set for him.

Brian (Brian Ferri-Taylor, Physical Therapist) is great! He really helped our daughter and spent time educating us so that we could help her as well.
