

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Grateful parents write:

Maureen {Maureen McGuire, Speech-Language Pathologist} works very well with children. Concerning my son, she was able to make the sessions very enjoyable to him (he saw it as play) but was able to gradually help him overcome many of his speech challenges.

* * * * *

Mindy {Melinda Gulley, Occupational Therapist} truly cares about "her" kids and families. She was visibly saddened on our last day together and that meant a lot to know that to her -- working for the Elks Major Project is her passion -- not just her job.

* * * * *

We are very pleased with the services provided, and have noticed great improvement in both our children's speech. Mariah, in particular, is difficult to work with because of her young age, yet with Maureen's {Maureen McGuire, Speech-Language Pathologist} persistence and guidance she is making slow, steady progress and seems much more pleased and self-confident.

We love Mavis {Mavis Johnson, Occupational Therapist} and her wonderful enthusiasm and love for our son is quite evident. She is a gem.

Thank you from the bottom of our hearts for your generous help.

Becky {Becky Fahs, Speech-Language Pathologist} was great. Always positive. Always willing to help and listen.

A coin a day so they can walk, talk, see and play!
