

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Preschool Directors write:

Children in my program have been given early treatment for eye/vision problems due to your screening. The parents appreciate you and so do I.

Anna {Anna Galvan, Pediatric Vision Screener} is very good and professional at her job. We always look forward to her screening our children!

Parents pleased with results of therapy:

If I may say, I have been very pleased with the results. Judy Linda {Occupational Therapist} is very good at what she does. My children have improved greatly. My older child's grades have improved tremendously. He went from D's to B's and A's. Her program she used was wonderful. We are grateful for her and her dedication.

Terri {Terri MacCoan, Speech-Language Pathologist} made a huge difference in Keefe's life; he made great progress with his language skills. Keefe loved Terri and the therapy. He was always excited for her to visit. We will miss her. Thank you so much for providing the services.

Pat {Pat DiMercurio, Physical Therapist} is a wonderful therapist! We love working with and learning from her. Thank you!

A coin a day so they can walk, talk, see and play!
