

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Pediatric Vision Screener does great job!

Gina [Gina Murphy, Pediatric Vision Screener] is a pleasure to work with. She is so good with our little guys and they perform so well under her instruction. Vision week runs so smooth and I look forward to seeing her year after year as we watch our students grow and change. She does a great job tracking our referrals and is able to provide me with details I didn't know.

Great job and service. Thank you so much for caring for the community and the next generation at an early age!

I feel so lucky:

Judy [Judy Linda, Occupational Therapist] was great! I feel so lucky that my child was able to be helped by her. Thank you so much! She really worked with us as parents and kept things clear to us. She answered our questions concisely and clearly. Thanks and thank you to your organization.

Parents are enlightened:

Thank you for your continuous efforts to give back to our children in the community. Not only did our children enjoy your screenings but now our parents are enlightened with the results of their child's test scores. Nicole [Nicole Smith, Pediatric Vision Screener] did an awesome job. She's warm, high spirited and always has a smile on! Our children respond with a positive attitude, because of her friendly way of instructing the children and keeping their focus.

A coin a day so they can walk, talk, see and play!
