

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Chaysen has made measurable gains that are directly related to the service he receives from Hedley (Hedley Uetake, Speech-Language Pathologist) Hedley has the ability to establish and maintain an excellent working rapport with both children and adults. Her sessions are productive, engaging and meaningful. She not only works with Chaysen, but provides me with techniques, strategies and recommendations that enable me to reinforce skills at home. Chaysen looks forward to his sessions with Hedley. Being accepted for services from California-Hawaii-Elks Major Project has been a blessing. Chaysen's speech has improved along with his self-confidence and love of learning. Thank you for providing a necessary, life-changing service to the children and families of our community.

Great program. Candy (Candy Zinn, Pediatric Vision Screener) always does an excellent job. Very friendly, informative and good with children. Parents look forward to this service every year. Thank you.

I have nothing but positive things to say about Sheila McCarthy (Occupational Therapist). My son, Brice, was not only helped by her therapy techniques but he grew very fond of Sheila. She took pride in Brice and is a huge part of what he is today. We are so very pleased with everything she has done and she will ALWAYS have a special place in our family's heart. Thank You!

Thank you very much for screening our preschool children. Katie (Katie Mackay, Pediatric Vision Screener) was kind, professional and was able to speak Spanish to the children who needed help.
