

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Vision screenings appreciated:

I look forward to setting up our vision screening with Mrs. Gina Murphy {Pediatric Vision Screener}!

I appreciate her obvious, sincere concern for the vision of every one of our students.

We greatly are appreciative as well, that your organization contacted us in the first place, to set up this valuable aid to our school, parents and students to determine if a vision problem exists in the children. The fact that it is free to every family! What a blessing you are. Thank you very much!

The Elks make a difference:

Judy {Judy Linda, Occupational Therapist} has made a difference in our child's life. She is doing a truly wonderful job and we are grateful for her. Our boy is becoming better equipped to become a successful person.

Thank you for your program.

Charlene {Charlene Robles, Speech-Language Pathologist} made the lessons fun and enjoyable for Kayla and told us how we could help with Kayla's therapy. I liked how parent involvement was encouraged in this program, and Charlene did a wonderful job with Kayla. I also liked how the program is held in the child's home and is flexible to work around the family's schedule.

I would like to thank the California-Hawaii Elks for sponsoring this project. It has made a tremendous difference in my child's life.

A coin a day so they can walk, talk, see and play!
