

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

### The Best Thing About Your Program:

The friendly, inviting atmosphere Hedley (Hedley Uetake, Speech-Language Pathologist) created each week for Don is the best thing about your program. She was always so prepared and knew how to challenge Don in the right way to help him learn how to correct his speech impediment. She truly cared about giving Don the best care possible. I wish he could have continued a little longer into his kindergarten year, but he is doing great. The teacher says he speaks very clearly. She said she has noticed no speech problems of any kind. I will highly recommend your program to my friends and I can't thank you enough.

Mahalo for everything!

### Preschools and Day Care Centers Appreciate Elks Pediatric Vision Screeners:

We love to have Candy (Candy Zinn, Pediatric Vision Screener) come to our school. She has a very friendly spirit and is easy to work with! Everything ran smoothly.

We are writing to express our appreciating of your vision services for our preschool. We have a small preschool in our district with 52 students. With the help of Katie Mackay (Pediatric Vision Screener) we were able to have their vision screened and referrals were made. Preschool is such a vital time to find health issues that to have the screening done was a great help to our health program here in our school district.

Linda Pinnell (Pediatric Vision Screener) was very patient with our children. Other co-workers from our head start noticed how good she was with the children. The children were very comfortable.

\* \* \* \* \*

Gina (Gina Murphy, Pediatric Vision Screener) has done an awesome job with my preschool. I enjoy seeing her and her professional attitude towards the children. Her concerns with the children are a positive feedback.

A coin a day so they can walk, talk, see and play!
