

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Everything is going well and I am looking forward to Katie spending time with Sheila (Sheila McCarthy, Occupational Therapist) this school year. Many thanks to Sheila; she is wonderful with my daughter Katie.

Denise (Denise Wilson, Physical Therapist) is very professional, compassionate, and knowledgeable. She has helped us greatly with our child.

Gina (Gina Murphy, Vision Screener) is a great person and provides great service to our agency. She works wonderfully with the children and has great knowledge about vision screenings and knows her job well in detecting when a child needs further assistance with vision. I am very happy to have Gina as part of our center. Thank you.

Hedley (Hedley Uetake, Speech-Language Pathologist) was always professional, on time, had wonderful rapport with our child, and is so knowledgeable in the speech and language area. Our son's speech has just blossomed since she began working with him. She always used creative and entertaining activities to build skills and keep our son's attention. Her services exceeded what I initially expected from a therapist. Most of all, I am so grateful that our child has reached all his goals and is performing at age level. Thank you very much for providing such wonderful services to our families.

Anna (Anna Galvan, Vision Screener) has been screening our program for a good number of years. She is always most professional and easy to work with. Every year our screening goes smoothly because Anna is prepared, punctual, and friendly. I look forward to working with her for more years to come.
