

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

### Therapist has Kind Approach:

We appreciate the kind approach Brian (Brian Ferri-Taylor, Physical Therapist) has with the children. He engages them only when he has witnessed an appropriate window of opportunity. The boys feel comfortable with him and like to see it's him at the door.

Thank you for all your support!

Auntie Genie (Genie Ruddle, Speech-Language Pathologist) was wonderful with my son. He can now speak his "k", "c" and "g" sounds with ease. Rydge enjoyed meeting with Auntie Genie. She made learning fun with all of her games.

### Preschools and Day Care Centers Appreciate Elks Pediatric Vision Screeners:

It is always a pleasure to receive services from the Elks Program. Mrs. Pinnell (Linda Pinnell, Pediatric Vision Screener) and her volunteers are awesome and fine ladies and very professional. With their skills they have been helping our children for years in our Head Start Program.

Thank you very much.

\* \* \* \* \*

Anna (Anna Galvan, Pediatric Vision Screener) does a wonderful job at screening the children. We always value her evaluation of the children.

Thank you for your program.

\* \* \* \* \*

Nicole (Nicole Smith, Pediatric Vision Screener) is wonderful with the children. We didn't have any tears. A few of the preschoolers wanted to have their eyes retested on the second day. Testing went real smoothly. Thank you.

A coin a day so they can walk, talk, see and play!
