

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Miss Maria (Maria Martin, Physical Therapist) is such a warm, gentle and loving therapist. She is eager to see Jesse thrive and meet all his goals. She rejoices with us in all his advances and keeps her focus on the next goal. Jesse is very fond of Miss Maria and looks excited when she arrives. This shows how Maria makes it a fun and enjoyable time, not one that hurts Jesse. He has made amazing advances under Miss Maria's guidance. Our Neurologist said he would not crawl until 18 months (he did at 11 months) and he would not walk until 2 (we are almost there). She is amazing and we are blessed to have her. Thank you Maria!

Mindy (Mindy Gulley, Occupational Therapist) is the BEST. Our primary concern at the start was eating (getting rid of feeding tube). Hard work from Mindy and us got our son there is six months. We have reached this goal and now we are working on other milestones weekly. Chance seems to be catching up quickly and thriving. I don't know if we could have been as successful without Mindy. She is a godsend!! We love Mindy Gulley.

We were very pleased with Wyomi (Wyomi Yonzon Yockey, Pediatric Vision Screener). She was very professional and knowledgeable about what she came to do. It impressed me that she was able to get through most of our children on the first day. Thank you very much for providing this great service to our school.

Candy (Candy Zinn, Pediatric Vision Screener) is always very professional. She is extremely patient with the children. She always puts the children at ease.

A coin a day so they can walk, talk, see and play!
