

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Judy (Judy Linda, Occupational Therapist) is a jewel. She is professional, caring, with honesty and integrity. She has amazed us with her skills and techniques. An awesome individual and so dedicated. Thank you so much for the opportunity to work with her. We are all fortunate to have her!

Our preschool is predominately from low income families. We appreciate the services you provide for the children at our school. As always Anna (Anna Galvan, Vision Screener) is great! I am looking forward to working with her next year.

Hedley (Hedley Uetake, Speech-Language Pathologist) was wonderful with Andrew. She made sure there was plenty of time to discuss any concerns, triumphs, and desires I had for Andrew. She became a trusted friend who always encourages him to do his best.

This program is fantastic! Coming from our homeschooling atmosphere, the fact that Hedley (Hedley Uetake, Speech-Language Pathologist) came to our house was perfect. I was able to closely observe her and reinforce what she was teaching. I loved that we could do this at home. Ian improved rapidly. Thank you so much for helping Ian communicate better. He has such a better relationship with his brothers and friends because he can talk clearly. I wish more kids could benefit from this wonderful program!

It was very nice to have Leanne (Leanne Cadwallader, Vision Screener) here for our annual vision screening. She is really nice and all the children are very comfortable with her during the screening. We really appreciate all she does for our children.

A coin a day so they can walk, talk, see and play!
