

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

When Judy (Judy Linda, Occupational Therapist) came to evaluate our two boys she described them as needing a "tune-up". I am confident that Judy did everything she knew to do to get them "tuned-up". I have very much appreciated what I learned from Judy and that she continues to inform me of ongoing seminars and discussion groups.

Thanks so much to Candy (Candy Zinn, Pediatric Vision Screener) for a wonderful job and identifying possible vision problems in our children.

* * * * *

Katie (Katie Mackay, Pediatric Vision Screener) was very nice and understanding. It was our first time and I was not prepared and she was very understanding. Our parents appreciated this free service. Thank you!

This was a first for our preschool. It went very smooth and is definitely something we are interested in continuing. (Anna Galvan, Pediatric Vision Screener)

Leeanne (Leeanne Cadwallader, Pediatric Vision Screener) was easy to work with and flexible with the accommodations we provided. She was respectful, helpful and appropriate with the children. Each screening was a good experience for the children. We would like to receive services for our families again next year. Good job and great work Leeanne!

My little preschoolers loved "Miss Linda" (Linda Pinnell, Pediatric Vision Screener). She was kind and gentle with my students. Thank you for giving my preschoolers the gift of vision screening.
