

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Thank you for sending someone as kind and helpful as Terri (Terri MacCoan, Speech-Language Pathologist). She was very understanding with Nate. The practice material she would leave with me for Nate was so helpful. We miss her. Nathaniel has better speech than all three of his siblings. We are sure it's because Terri worked with Nate's speech. Thank you again for picking Nathaniel for speech therapy!

We love the Elks, what it has done and what it is doing for the children of the community. Linda (Linda Pinnell, Vision Screener) has been coming to our school over twenty years and is one of the greatest ladies I have ever met. Thank you for your program and the wonderful staff that you have managing it! Keep up the good work!

Maria (Maria Martin, Physical Therapist) is a great Physical Therapist. She helps my daughter's muscles loosen and keep the strength she needs. Emma's muscles have no tone so getting her even a little bit stronger is a goal met. Maria answers all my questions and goes above and beyond to meet our goals. I am very pleased to have Maria. We love her!

This is a valuable service for preschool children. Many would go years before a vision problem is identified. Thank you to the Elks and their sponsors for this exceptional program.

I was very impressed on the professionalism, expertise and knowledge the screener (Wyomi Yonzon Yockey, Vision Screener) had towards the parents, children and myself. It was a wonderful service you provide to many children. It was appreciated by our parents also. We hope to continue our relationship and have another screening next year.
