

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Preschool directors write:

Thank you for such a wonderful program. Thanks to the Elks, several of our children will receive the attention to their vision they need.

* * * * *

Linda {Linda Pinnell, Pediatric Vision Screener} was a delight to work with and have at our facility. She is very good with the children, patient with our staff and knowledgeable in her field.

We have asked her to come back next year for our new students and we are confident that all of our new parents will be just as pleased.

Thank you.

* * * * *

Erina {Erina Kindreich, Pediatric Vision Screener} is wonderful with the children. We look forward each year to having her back.

A thankful parent writes:

We have had a wonderful experience with your program! Nathan's speech skills (and self-esteem) have grown considerably in the past year. He looks forward to his sessions with Maureen {Maureen McGuire, Speech-Language Pathologist} and takes to heart any instructions she gives him for practicing during the week.

Maureen has an incredible rapport with little ones. I have been amazed at how cooperative Nathan is with her. She is very talented, and we are blessed to have her working with our child.

A coin a day so they can walk, talk, see and play!
