

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Grateful parents write:

I would like to thank the Elks program and Mrs. Johnson (Mavis Johnson, Occupational Therapist) for helping my daughter. We have already seen the potential for Priscilla. I don't know where I would be without the help from Mrs. Johnson. I have to fight to get help from the school district. THANK YOU again and may God Bless this program and all involved.

Preschools and Day Care Centers Appreciate Elks Pediatric Vision Screeners:

What a wonderful job Gina (Gina Murphy, Pediatric Vision Screener) does each and every year with our kids here. She is very organized and screens all the children so well. She takes an interest in their vision from year to year and treats the referrals so well.

Gina is a pleasure to work with and I look forward to seeing her year after year!

I look forward to seeing Anna (Anna Galvan, Pediatric Vision Screener) each year. She is extremely professional and works very well with the adult volunteers and children. We feel very fortunate to have this service for our day care families.

Wonderful program and a very personable, lovely employee (Candy Zinn, Pediatric Vision Screener). Thank you so much! Great Job!

* * * * *

The screener (Nicole Smith, Pediatric Vision Screener) was polite and professional. She was willing to work with the children and staff. She was patient with the children. Since the other children waiting to have a turn were quiet, the screening process went quickly.

A coin a day so they can walk, talk, see and play!
