

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Judy (Judy Linda, Occupational Therapist) was so amazing; I only have positive feedback for her. She is very good at being attentive to the child and the parents needs/concerns. She always has great "homework" ideas for the parent to do at home throughout the week. She is very positive and has a great cheerful demeanor that the kids love. We have been blessed by having Judy as our therapist. Thank you!

Gina (Gina Murphy, Vision Screener) did a great job. She was excellent with the children and very patient with them. She made it fun for the children.

Terri (Terri MacCoan, Speech-Language Pathologist) always brought a professional aspect to every session coupled with a real personal concern for our child. She has a natural ability to communicate with the child on the level the child needs to feel comfortable. Terri always confirmed that Felicia knew each step of the process before moving on to the next step. Terri always made sure to review each step at the beginning of each new session. I would like to thank Terri MacCoan and the California-Hawaii Elks Major Project for including our family.

I would like to thank Leeanne (Leeanne Cadwallader, Vision Screener) for her effort and her time. It was very nice to have her here at our school. The children were very comfortable and enjoyed the testing time.

We are very grateful for Maria (Maria Martin, Physical Therapist). She was instrumental in helping us get feet/ankle braces for our son to help with a minor issue he has. We would never have thought or known that he needed them. Thank you to Maria and the Elks Association for all of your help and support.
