

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Terri (Terri MacCoan, Speech-Language Pathologist) was an absolute pleasure. Claire enjoyed her sessions and I was impressed with how well Terri worked with my daughter. Thank you for this wonderful service. We really appreciate it!

Judy (Judy Wong, Occupational Therapist) is very professional. She always has an answer to our questions. Judy has never been late to her appointments; she's always at least fifteen minutes early. I really hope that with Judy's help our child will reach our goals. We are very pleased to have her as our child's occupational therapist.

Anna (Anna Galvan, Vision Screener) continues to provide outstanding and professional service at our preschool. We would like to thank the California-Hawaii Elks for providing vision screening to our preschool children. Each year a number of children are found in need of professional services and are referred. We are both excited and relieved when we see children coming back from the eye doctor with glasses. Your project continues to protect the eye sight of young children! Your representative Anna Galvan is the best!

Wyomi (Wyomi Yonzon Yockey, Vision Screener) is a wonderful combination of professional and kind. I feel so thankful for this program. Many children have been identified and benefitted from the early intervention through the years. Thank you!

Judy (Judy Linda, Occupational Therapist) was excellent with Sam. Her care and therapy boosted Sam to a new level. Sam is thriving in the school setting and functioning at a level equal to his peers. I would refer Judy to any other parent who might think their child has some delays and/or obstacles to overcome. Outstanding!
