

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Maria (Maria Martin, Physical Therapist) is a wonderful physical therapist. She always fits the therapy around whatever our daughter was doing that day. This helped our daughter thrive and accomplish things we never thought she would.

The vision screener (Leeanne Cadwallader, Vision Screener) was very professional and very patient with the children. She made them feel comfortable with the procedure.

\* \* \* \* \*

Hedley (Hedley Uetake, Speech-Language Pathologist) has done an outstanding job. Our four year old is very comfortable working with her which surely helps with his learning process. I have been involved with the sessions and am very pleased with the improvements.

\* \* \* \* \*

I always enjoy working with Gina (Gina Murphy, Vision Screener). She is a delight to be with. Gina makes the kids feel comfortable and explains things well. Thank you. See you next year!

\* \* \* \* \*

Terri (Terri MacCoan, Speech-Language Pathologist) is doing a wonderful job with our great grandson Nate. She is kind, loving and patient with Nate. His speech has improved so much. Terri always leaves us with something to work on until we see her again. We are very happy with Terri.

Judy (Judy Linda, Occupational Therapist) is an incredible therapist! I share our experience with anyone who will listen. She not only benefitted the child but our family learned so much. I became an Elk officer in appreciation for this fine work.
