

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

The Program is great, especially at no cost! It was unexpected. Terri (Terri MacCoan, Speech-Language Pathologist) was fantastic. My daughter bonded with her immediately.

Wyomi (Wyomi Yonzon Yockey, Vision Screener) was great. I hope we have the chance to work with her again in the future.

Ms. Jocelyn (Jocelyn Agra, Speech-Language Pathologist) has a great program for my son. He really enjoys it and his speech is much better than before. Also the homework she suggests is easy to follow and work on with my son so that I can help my son without stress or difficulties. I really appreciate this program and thank you so much for your help. Without this program I wouldn't know how I could help my son.

We always look forward to having Linda (Linda Pinnell, Vision Screener) come to our school.

* * * * *

We appreciate the vision screening service the Elks Association provides. The screening results help back up teacher's observations and prompt parents to seek professional help. It's great also that Teresa (Teresa Schachtel, Vision Screener) follows up with students previously screened. We will be looking forward to this service every year.
