Brian (Brian Ferri-Taylor, Physical Therapist) has the wonderful ability to encourage my child to want to exercise and improve with stretching. Even when he is not here his encouragement and lessons are easy to follow and my son keeps working with me. Brian also has a great deal of knowledge that was very helpful for us in making and setting goals.

Anna (Anna Galvan, Vision Screener) is a very efficient screener. She knows what she is doing and explains the things to children thoroughly as well. Thanks to the Elks Association who are making it possible to intervene in a child's life for a positive change.
