

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

We are very grateful for Miss Hedley's (Hedley Uetake, Speech-Language Pathologist) help. She was always professional and caring. Eric looked forward to game time and we saw his speech improve with each visit.

Katie (Katie Mackay, Pediatric Vision Screener) has always been pleasant and patient with staff and children. We love having her when the exams are to be done. Katie is very professional and patient with our children. We enjoy having her come every year. She has learned Spanish to communicate with our children and that helps them respond to her.

Brian (Brian Ferri-Taylor, Physical Therapist) is great with my daughter Makenzi during therapy. He works well with her even when she is in a bad mood.

We really enjoy the sessions with Hedley (Hedley Uetake, Speech-Language Pathologist)! She is very enthusiastic and encouraging. She gives us very helpful strategies and we see a lot of improvement in our child's speech. Thank you for providing such a valuable service. There needs to be more programs like this one available to families who can't afford private speech services.

Leeanne (Leeanne Cadwallader, Pediatric Vision Screener) was very soft spoken with all the children. This made the screening run very smoothly. All the children were very comfortable.

\* \* \* \* \*

As always Linda (Linda Pinnell, Vision Screener) does a great job. Her friendly smile is warm and the children like playing the pirate game. Thank you!
