

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

My daughter and I love Genie (Genie Ruddle, Speech-Language Pathologist). We would look forward to her visit each week!

We are blessed and happy to have Brian (Brian Ferri-Taylor, Physical Therapist). He is really good at what he does. We do see improvement in our son. Brian is gentle and works very well with Alvaro. And as parents that helps in dealing with my son's treatment and care. Thank you.

I am happy with all services because we are a nonprofit organization and serve low income families. This is a great benefit for all families.

Sheila (Sheila McCarthy, Occupational Therapist) was terrific and we feel very fortunate to have been able to avail ourselves of her services through the Elks. She helped not only Zachary to acquire better use of his body, but also helped us understand his idiosyncrasies- his unique person and requirements. She provided excellent materials and answered questions. We feel very blessed to have had her help at the right time for Zachary. Thank you providing this service!

My son loves Hedley (Hedley Uetake, Speech-Language Pathologist). It has only been a few weeks since she stopped therapy and my son expressed how much he missed her. She has awesome child relation skills, so patient and loving. Those who are lucky enough to get her are truly blessed.
