

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Gina (Gina Murphy, Pediatric Vision Screener) was very professional and was aware of age appropriate vision screening She was very sensitive to the children she was screening.

Maria (Maria Martin, Physical Therapist) did her best to maintain and keep contact with Elisa and her mother, Megan; something Megan made challenging. I am grateful for Maria and all of the help that she was able to provide for Elisa. Elisa has improved immensely and for that I am very thankful.

Mrs. Jocelyn Agra (Speech-Language Pathologist) worked really well with our daughter. Mrs. Jocelyn was able to handle Kaycee's hyperactivity and times of lost focus. It is very apparent that Mrs. Jocelyn is very experienced in working with these types of children. The progress Kaycee made is noticeable to her family. Thank you Mrs. Jocelyn and the California-Hawaii Elks Major Project.

Wyomi (Wyomi Yonzon Yockey, Pediatric Vision Screener) was "extremely" professional. She seemed to have knowledge of child development and worked very well with the children. She was very thorough and retested those children she was not sure of. I would highly recommend this agency screening for our children next year.

Katie (Katie Mackay, Pediatric Vision Screener) was wonderful with the children very positive, respectful, non-threatening and friendly. It went so smoothly. We so appreciate this program for our preschoolers! Thank you and keep up the good work.

A coin a day so they can walk, talk, see and play!
