

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Parents really appreciate the services offered to them. A lot of them are impressed with the fact that their children are getting tested. A few of our children are even in glasses now thanks to Ms. Galvan (Anna Galvan, Pediatric Vision Screener). Thank you and see you next year.

Skai has benefitted greatly by Mrs. Uetake's (Hedley Uetake, Speech-Language Pathologist) attitude and tools which he may employ daily. A dramatic improvement is noticed by all, including Skai's preschool teachers, on his articulation and effort in sounding off on individual letters and sounds. Mrs. Hedley is in my opinion the best Speech Therapist we have encountered. We feel blessed and fortunate to be receiving her services. Aloha.

Wyomi (Wyomi Yonzon Yockey, Pediatric Vision Screener) is wonderful! She is accommodating with our schedule. She is perfectly appropriate with our children and I believe that her calm and warm nature along with technical ability add greatly to the success of our screenings. Thank you so much.

Judy (Judy Linda, Occupational Therapist) is great at modifying and creating ways to help my son. She is full of help and encouragement. We are grateful for her help. She listens to our concerns and addresses them. She has taught me so much as a parent. I am better equipped to help my son. Thank you California-Hawaii Elks.

Thank you for the service you are providing. We had screeners in previous years from "Prevent Blindness in Northern California" and they retired leaving us at a loss to have this valuable service yearly. Leanne (Leanne Cadwallader, Pediatric Vision Screener) called and we are able to detect any vision problems early. Thanks again!

A coin a day so they can walk, talk, see and play!
