

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Wyomi (Wyomi Yonzon Yockey, Pediatric Vision Screener) is a delight to work with and she is always willing to be flexible when needed. Our children always receive a positive experience with their exams. She is always willing to listen in regards to any children I or the staff have a particular concern about. Thank you for providing us with this very valuable service.

Thanks so very much to Brian (Brian Ferri-Taylor, Physical Therapist), he is so kind and helpful. He has been a physical therapist to all three of my children. He answers all my questions in full and he is always helpful when I'm scared and/or concerned about the outcome of my child/children's disability. This service and Brian are heaven sent.

I felt that my son made great progress in having speech therapy. He looked forward to Hedley's (Hedley Uetake, Speech-Language Pathologist) weekly visits. She made speech therapy fun by including games and toys in the learning process. Hedley also provided me with flash cards we had made during therapy so I could further instruct Nathan. Plus Hedley showed me several creative ways to correct Nathan's speech as well as fun activities which helped promote "good" speech. Nathan and I both enjoyed having Hedley as a Speech-Language Pathologist. The program worked very well for us and it was a huge convenience that Hedley could come to our home to perform the therapy. We will miss her. Thank you for providing this program.

I like how Leeanne (Leeanne Cadwallader, Pediatric Vision Screener) was very patient with the children and helpful for our needs. We really enjoyed having her do the eye exams.

A coin a day so they can walk, talk, see and play!
