

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Teresa Schachtel (Pediatric Vision Screener) was so nice with the children. They seemed to enjoy the screening and their time with her. Teresa is patient, kind, soft spoken and friendly. We would love to have her back next year. I appreciate her work with the children. This is a great service to all the children. Thank you.

Physical Therapist Denise Wilson has done an excellent job with Mia and us. She showed us how to do things with Mia we would have never thought of to help her. And the help with getting approved for CCS and other options are most valuable. Her knowledge, attitude and professionalism is a great example of a perfect therapist and person representing her profession and the Elks organization. Thank you!

Elizabeth Holzhauser, Pediatric Vision Screener, makes this a smooth, fun experience for the staff and the children. This screening is so important and we were so blessed to be able to serve our children with it. We are looking forward to seeing Elizabeth next year.

Jocelyn (Jocelyn Agra, Speech-Language Pathologist) is wonderful. Thanks to her, my child can now be understood by others most of the time, without me "interpreting" his speech. Thank you so much.

Isaac's speech has improved noticeably with his score of 2 years and 11 month rising to a score of 4 years in only four months of therapy. After fighting with our health insurance company and the public school special education system you were my last hope to get speech therapy for my son. You have been our blessing and we are so thankful for all that you do.

The children warmed up to Leanne (Leanne Cadwallader, Pediatric Vision Screener) quickly and she made the screening fun! I appreciated her being so organized! Thank you California-Hawaii Elks Major Project for providing this screening to our children.

A coin a day so they can walk, talk, see and play!
