

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Judy Linda (Occupational Therapist) has been professional AND caring while working with Jasmine. We appreciate the positive rapport she has developed with Jasmine which has certainly contributed greatly to Jasmine's positive self-esteem. Jasmine considers Judy a close friend. We appreciate the time and energy the Elks have given for our daughter to have Judy in her life. Thank you so much!!!

Gina (Gina Murphy, Pediatric Vision Screener) is a pleasure to work with. Year after year she provides us with a service that many families would overlook due to finances. Gina is a very qualified examiner and has a great rapport with the children. Thanks again to the Elks for sharing her with us.

I notice a lot of improvement in a short time and Trevan is reaching his goals. Like Brendan, Trevan enjoys and looks forward to his sessions with Hedley (Hedley Uetake, Speech-Language Pathologist). Trevan is very comfortable with Hedley since he has known her for so long (while Brendan started about a year ago). Trevan is excited about working on his speech homework and tries very hard which leads to great progress. Now after seeing both sons go through therapy and Brendan going through two previous programs, I feel that this, your program (Hedley) is the best one out there. No cost to us is just amazing! We are so fortunate! Thank you!

I love this free service for the children! As the director of the preschool I am happy to be able to tell the parents about this wonderful Elks Vision Screening as they register their children at our school. I have them fill out the permission slip at the time of registration so that we don't miss anyone.

I also love Linda Pinnell (Pediatric Vision Screener)! She is a true professional. She is organized and very knowledgeable in the work she does. She is so kind and gentle with our little preschoolers. I also love the fact that Linda has been coming to our school for 28 years! That means she tested my daughter when she came to school here and this year she tested my granddaughter! Thank you Linda for 28 years of service to our school.

A coin a day so they can walk, talk, see and play!
