

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Genie (Genie Ruddle, Speech-Language Pathologist) has been very helpful to our family. She has taught our daughter language skills that we were not trained in. She has also taught us the skills that we need to support Taylin's language development. We are extremely grateful for the services provided through the Elks and for Genie's dedication. She provides wonderful resources, home assignments, flexibility and relates well to our daughter. Please let us know if there is anything we can do to support your good work. Mahalo nui loa!

This work with Mavis (Mavis Johnson, Occupational Therapist) is the first positive therapy interaction my son has had. He has stopped his self abusive behavior, is rolling over now and scooting on the floor. We are so pleased with his progress in this brief time. We are very grateful.

Our family really likes Valerie (Valerie Haskins, Occupational Therapist). She takes her time with Mason and we feel he is improving with the services she provides for him. Mason is always very excited to see her. She is very professional and I can tell that she truly cares about Mason.

Hedley (Hedley Uetake, Speech-Language Pathologist) is wonderful. Sebastian looks forward to his sessions every week. Hedley has an amazing assortment of games/activities that keep the sessions as enjoyable as they are therapeutic. Fortunately, as a pediatrician, I know what is expected to quality services and Hedley exceeds all expectations!

The services that the Elks provide are a blessing and are improved only by having therapists like Hedley involved. We will forever be indebted for all that we have and will receive.

A coin a day so they can walk, talk, see and play!
