

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Thank you so much for offering this free service. We really appreciate the help it gives our families. Teresa (Teresa Schachtel, Pediatric Vision Screener) has been screening our students for many years and is always wonderful with the children and teachers alike. She is polite, caring and professional. She usually has 1 or 2 referrals by the end of two days of screenings. And it is wonderful to help children who might not yet really realize that there is a problem with how they see things. We look forward to seeing Teresa again next March - thank you again.

I think Max is improving slowly. I know the occupational therapy is helping and as Max grows and is able to talk I am sure he will improve more. Paula (Paula Rainey, Occupational Therapist) has been very helpful in educating us in how to help Max. She has made things for Max (weighted vest, crash pad etc) in her own time and I feel this is above the call of duty and I am very grateful. Paula is always pleasant and very forgiving when Max gets crazy and hurts her.

Tracy (Tracy Archipley, Speech-Language Pathologist) did a great job for my child. She was a good therapy teacher and if my child had need of the service again I would like for Tracy to be her teacher. She was a great blessing to my family and my child.

Our screener, Dina (Dina Villanueva, Pediatric Vision Screener) was very professional and worked well with our very young children in class, even the very shy students. It was a positive experience. Thank you for the excellent service that you provide.

Thank you Linda (Linda Pinnell, Pediatric Vision Screener) for taking the time to view each child, you're very professional and well organized. We appreciate your service and look forward to having you next year!

A coin a day so they can walk, talk, see and play!
