

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

I am so grateful for Speech-language Pathologist Jocelyn, and the therapy program and the caring attentive therapist she is. She really is in touch with what helps my child and has empowered me to help my child at home. The program which emphasizes helping the family to help the child is just what I wanted. My child has made tremendous progress as I and the therapist each expect a lot from my daughter and gives her the support she needs. Mrs. Jocelyn takes time to hear my concerns as well.

Occupational Therapist Pam, is a very rare care provider with her knowledge. In my son's seven years we have had dozens of health care providers. Pam by far is the most effective with the care and knowledge with her 20 years of experience has proven to be invaluable in treating our child. It is very rare for someone to "get" our son and his challenges. She treats both him and us with respect even when he is most challenging. Thank you to Pam and to the Elks Major Project for giving us the tools to help our child.

Physical Therapist Becky, has been a huge part of our family and she has given us so much. She helps Jenna and provides morale support to her. She truly communicated to Jenna with the understanding of all her needs. Becky has been a key aspect of our family during Jenna's therapy. Becky assisted Jim and I with parenting concerns and also provided us with support and understanding. Our life has been better due to Becky.

Pediatric Vision Screener Wyomi is a delight to work with every year. She is professional, kind, thorough and always willing to understand when our school hits a snag in scheduling our visit and the times we need. I would like to thank everyone in your organization for the very special service you offer to our school!

We were so happy with the service that Speech-Language Pathologist Hedley provided. Kekoa looked forward to seeing her and he especially loved the games she brought. Hedley always took the time to answer my questions. She gave us things to work on over the summer to help Kekoa get ready for kindergarten.

A coin a day so they can walk, talk, see and play!
