

## NEWS FROM YOUR ELKS MAJOR PROJECT . . .

I really love Physical Therapist Denise, for the fact that she was able to come to my house and show me hands on exercises to do with Bryton. She had really great toys to help motivate her and lots of literature and brochures to follow if I forgot anything after she left. She made it a very painless experience.

Pediatric Vision Screener Katie, was fantastic even with the children who were a little apprehensive. They all enjoyed their time with Katie and the parents appreciated the service. Thank you very much!!

Speech-Language Therapist Genie, is an awesome lady. My son had a hard time cooperating with his sessions and she worked with us in every way possible. With everything she taught us and the homework my son was able to achieve his speech in one year. We are so thankful for her hard work and patience as she helped us. California-Hawaii Elks is an amazing program and I'm thankful so much for helping my little Austin. Aloha!

Pediatric Vision Screener Teresa, is an asset to our program because she works very well with everyone, including staff, children and parents. Teresa always provides clear instructions and screening results that are easily understood. Teresa is very flexible, reliable, friendly, professional and has excellent communication skills. We hope she will continue her services At Buen Principo.

My son very much enjoyed working with Speech-Language Pathologist Hedley as did I! She is very professional, working on the goals we wanted to accomplish doing that in a warm and nurturing way. We felt very comfortable with her and enjoyed receiving services from her! We are grateful to Hedley and the Elks Major Project. We will miss her!
