

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

As always Preschool Vision Screener Gina, was very professional. She delivered materials in plenty of time for us to notify the parents. She was great with the children and the staff. We look forward to seeing Gina every year! What a wonderful service you provide especially for the young ones who may not see an optometrist otherwise.

Physical Therapist Denise was wonderful at giving us activities where Ellison thought it was a game, not a therapy. Having the tools and knowledge of knowing what to work on I was able to keep working with Ellison between appointments and help her achieve her goals faster.

* * * * *

Preschool Vision Screener Linda, is always on time and very professional. She works well with all the children. She is a real blessing to our program and children.

Occupational Therapist Mindy came to us in June 2006 when our child finally came home from the hospital. He had a feeding tube in order to eat because he could not eat. Mindy guided us and helped Chance to gain the ability to drink from a bottle little by little and finally he no longer had to be tube fed. I can't imagine what we would have done without Mindy. She gave us and Chance quality care and wisdom. She listened and would not stop trying various methods to help our child. Even later as he grew she continued to help make sure he progressed to reach his milestones. She is an angel!

We love Speech-Language Pathologist Hedley. Jack is making progress and having success with the following letter sounds "c,f,y". He always enjoys and looks forward to his sessions with Hedley. She does a great job of keeping his interest and attention with fun and relevant games and activities. She has a very professional and child friendly personality! We are pleased with the progress Jack is making and hope to continue with the program in the D.C. area after our move this summer. Thank you for the support!
