

NEWS FROM YOUR ELKS MAJOR PROJECT . . .

Occupational Therapist Valerie, is wonderful; we all love her. She is so helpful my daughter looks forward to every visit and respects Valerie's opinion. Her name is almost a daily reminder in our house. She has given me as a mother, tools and evoked confidence in my daughter. We are so grateful for Valerie as a person and for the excellent service she provides

Physical Therapist Denise, is wonderful. She has been caring for my son for almost 9 years. We finally got to a point where some issues needed more intense therapy with immobile equipment. She attended the consultation with us and worked up a treatment plan with the new therapist. She has since then checked with us and the therapist on his progress. I feel she was an integral part of helping him get to where he is today.

We love Preschool Vision Screener Katie. She is terrific with children and understands how to screen preschoolers to a point where we are very confident they have been tested absolutely accurately!

I am pleased with the progress my daughter Journey has accomplished with Speech-Language Pathologist Genie. She has made a significant improvement on Journey's speech. It's been nothing but a blessing to work with Genie.

We truly appreciate Preschool Vision Screener Teresa's vision screening services that your program provides to our head start children by Teresa. She is very polite, respectful, and professional. Also Teresa is always punctual reliable, and flexible. Her services are extremely important to our clients because she has identified several children who need additional vision care. In addition, Teresa is helpful and provides clear instructions and results. We hope to have her back. Thank you!
